# Contents

<i>Series Editor's Preface</i>	vii
<i>Introduction</i>	1
Chapter 1    International Comparisons in Mathematics Education under the Perspective of Comparative Education <i>Gabriele Kaiser</i>	3
<b>Part I        Recent International Comparative Studies in                   Mathematics Education</b>	
Chapter 2    The Second International Mathematics Study <i>Kenneth J. Travers and Avrum I. Weinzweig</i>	19
Chapter 3    An Overview of the Third International Mathematics and Science Study <i>Albert E. Beaton and David F. Robitaille</i>	30
Chapter 4    Explaining TIMSS Mathematics Achievement: A Preliminary Survey <i>Curtis C. McKnight and Gilbert A. Valverde</i>	48
Chapter 5    An Examination of Instructional Practices in Six Countries <i>Leland S. Cogan and William H. Schmidt</i>	68
Chapter 6    Studying Mathematics Classrooms in Germany, Japan and the United States: Lessons from TIMSS Videotape Study <i>Takako Kawanaka, James W. Stigler and James Hiebert</i>	86
Chapter 7    The Case Study Project of TIMSS <i>Harold W. Stevenson</i>	104
Chapter 8    Some Findings of the US-Japan Cross-cultural Research on Students' Problem-solving Behaviours <i>Jerry P. Becker, Toshio Sawada and Yoshinori Shimizu</i>	121
Chapter 9    Comparative Studies on Teaching Mathematics in England and Germany <i>Gabriele Kaiser</i>	140
Chapter 10   Applications of Arithmetic in US and Chinese Textbooks: A Comparative Study <i>Lianghuo Fan</i>	151

<b>Part II</b>	<b>What Can We Learn from International Comparative Studies in Mathematics Education?</b>	
Chapter 11	The Value of Comparative Studies <i>Geoffrey Howson</i>	165
Chapter 12	School Mathematics: The Impact of International Comparisons on National Policy <i>Thomas A. Romberg</i>	182
Chapter 13	International Benchmarking as a Way to Improve School Mathematics Achievement in the Era of Globalization <i>Bienvenido F. Nebres</i>	200
Chapter 14	Gender Differences in Mathematics Achievement — Here Today and Gone Tomorrow? <i>Gilah C. Leder, Christine Brew and Glenn Rowley</i>	213
Chapter 15	Measurement Obstacles to International Comparisons and the Need for Regional Design and Analysis in Mathematics Surveys <i>Richard G. Wolfe</i>	225
Chapter 16	The Rationality and Irrationality of International Comparative Studies <i>Christine Keitel and Jeremy Kilpatrick</i>	241
	<i>Notes on Contributors</i>	257
	<i>Index</i>	263
