

# **Targeting Students' Science Misconceptions**

**Physical Science Concepts Using  
the Conceptual Change Model**

**Written by  
Joseph Stepan, Ph.D.**

**Illustrated by  
Mike Ryan**

**Pädagogische Hochschule  
Bibliothek  
Notkerstrasse 27  
9004 St.Gallen**

**Idea Factory, Inc.**

## TABLE OF CONTENTS

<b>Misconceptions and Conceptual Change: An Introduction .....</b>	<b>1</b>
The Need for An Improved Approach to Teaching & Learning .....	2
What are Some of the Problems with the Way We Teach Science .....	2
Changing Students' Naive Ideas Through a Conceptual Change Strategy .....	6
Format for the Activities in This Book .....	8
Teachers: Some Notes about Using the CCM .....	8
Assessment .....	9
 <b>Matter .....</b>	 <b>19</b>
Activity I a: How much matter? .....	24
Activity I b: Salt in water and sugar in water .....	24
Activity II: Powders and vinegar .....	26
Activity III: Do all liquids freeze? .....	27
Activity IV: Which liquid conducts electricity? .....	28
Activity V: Acids, bases, and neutral compounds .....	29
Activity VI: Describing a solid .....	30
Activity VII: Predict what gas is produced .....	31
 <b>Density and Buoyancy .....</b>	 <b>33</b>
Activity I: Sinking and floating of various objects .....	36
Activity II: Measuring boxes .....	38
Activity III: Paper towel stack .....	40
Activity IV: A carbonated drink .....	41
Activity V: Liquids .....	42
Activity VI: Buoyancy .....	43
 <b>Air Pressure .....</b>	 <b>45</b>
Activity I a: A strip of paper .....	48
Activity I b: A sheet of paper .....	48
Activity III: A paper tent .....	49
Activity IV: Blowing between pingpong balls .....	50
Activity V: Pingpong ball in a funnel .....	51
 <b>Liquids .....</b>	 <b>53</b>
Activity I: Adhesions .....	56
Activity II: Cohesion .....	58
Activity III: Light refraction .....	59
Activity IV: Clay in different liquids .....	61
Activity V: Clay balls and clay boats .....	62
Activity VI: Viscosity .....	63

<b>Force, Work, and Machines .....</b>	<b>65</b>
Activity I: The easiest way to move a load .....	69
Activity II: Dragging things on different surfaces .....	71
Activity III a: Hammer on a loose ruler .....	72
Activity III b: Standing against the wall .....	73
Activity III c: Lifting a small chair .....	74
Activity IV: Simple machines .....	75
 <b>Levers .....</b>	 <b>79</b>
Situation I .....	82
Situation II .....	83
Situation III .....	84
Situation IV .....	85
 <b>Motion .....</b>	 <b>89</b>
Activity I a: Card with coin resting on cup .....	94
Activity I b: Toy truck with doll .....	95
Activity II a: Books and paper .....	96
Activity II b: Three different balls .....	97
Activity III a: Two washers, one on top of the other .....	98
Activity III b: Shooting objects .....	99
Activity IV: Circular motion .....	100
Activity V: Balloon and straw .....	102
Activity VI: Bumping spheres .....	103
 <b>Pendulums .....</b>	 <b>105</b>
Activity I: Pendulums with same length, different mass .....	109
Activity II: Pendulums with same string length, different shapes .....	111
Activity III: Pendulums with same total length .....	113
Activity IV: Pendulums with same length to center of mass .....	115
  <b>Electricity .....</b>	  <b>119</b>
Activity I a: Lighting a bulb .....	123
Activity I b: Which circuits work? .....	123
Prediction Sheet #1 .....	125
Activity II a: Constructing a two bulb circuit .....	126
Activity II b: Which two bulb circuits will work? .....	126
Prediction Sheet #2 .....	128
Activity III: Insulators and conductors .....	129
Activity IV: Batteries and bulbs .....	130

<b>Magnetism .....</b>	<b>133</b>
Activity I: Magnetic or nonmagnetic? .....	137
Activity II: Materials through which magnetism can penetrate .....	138
Activity III: Iron filings and magnets .....	140
Activity IV: Strength of a magnet.....	141
Activity V: The electromagnet.....	142
 <b>Mental Model Building .....</b>	 <b>145</b>
Activity I: Probing box .....	148
Activity II: Inside a soda pop machine .....	149
Activity III: Day and night .....	150
Activity IV: Phases of the moon .....	151
Activity V: The seasons.....	152
Activity VI: Ice melts and changes to steam .....	154
Activity VII: Combining baking soda and vinegar.....	155
 <b>Heat .....</b>	 <b>157</b>
Activity I a: Melting wax on a copper rod .....	162
Activity I b: Melting wax on rods of different thicknesses .....	163
Activity I c: Melting wax on rods of different metals .....	164
Activity II a: The paper snake .....	165
Activity II b: Hot water and ink.....	166
Activity II c: Hot and cold bottles of water .....	167
 <b>Waves.....</b>	 <b>171</b>
Activity I a: Wave patterns .....	176
Activity I b: Wave reflections.....	177
Activity I c: Water waves produced by two sources .....	179
Activity II a: Water moving from a deep to shallow area .....	180
Activity II b: Waves going around corners .....	181
 <b>Sound .....</b>	 <b>183</b>
Activity I a: Blowing on a column of air .....	186
Activity I b: Tuning fork and an air column.....	187
Activity I c: Straws .....	188
Activity II: Tapping the bottles .....	189
Activity III: Glass goblets .....	190
Activity IV: A spoon tied to string, nylon, and wire .....	191
Activity V: Sound generated by a tuning fork through air, wood, glass, and metal .....	192
Activity VI: Rubber band sounds .....	193

<b>Light and Color .....</b>	<b>195</b>
Activity I: Path of light .....	202
Activity II: Reflection .....	203
Activity III: Color .....	204
Activity IV a: The effect of a liquid on the path of a beam .....	205
Activity IV b: The effect of a liquid on the appearance of a penny in a container.....	205
Activity IV c: The effect of eyeglasses on a beam of light .....	206
Activity V: Scattering .....	207
 <b>Transformation of Energy .....</b>	 <b>209</b>
Activity I: Rolling spheres .....	218
Activity II: Lighting a candle .....	219
Activity III: What color is best .....	220
Activity IV a: Inside a battery/concept mapping .....	221
Activity IV b: An electric cell .....	222
Activity V: What material and type of rod best conduct heat .....	224
Activity VI: The twin pendulum .....	225
Activity VII: What material is the best solar collector .....	226
Activity VIII:Light and plant growth/concept mapping .....	227
Activity IX: Lighting a bulb .....	228
Activity X: Putting out a flame .....	229
 <b>Geometry .....</b>	 <b>231</b>
Activity I: The fence .....	235
Activity II: Covering cylinders .....	237
Activity III: Filling the cylinders .....	238
Activity IV: Shapes of the shadows .....	239
 <b>Planning for Additional Topics .....</b>	 <b>241</b>
