Pacific Grove, California

Contents

CHAPTER 1	THE NATURE OF SOUND	1
1.1	Acoustics and Music	2
	Box 1.1 Kinds of Acoustics	2
	*Box 1.2 "... But Is It Music?"	3
1.2	Organizing Our Study of Sound	3
1.3	The Physical Nature of Sound	5
	*Box 1.3 The Value of Wave Analogies	6
1.4	The Speed of Sound	8
1.5	Pressure and Sound Amplitude	10
CHAPTER 2	WAVES AND VIBRATIONS	17
2.1	The Time Element in Sound	17
2.2	Waveforms	20
	Box 2.1 The Ubiquitous Oscilloscope	21
2.3	Functional Relations	23
2.4	Simple Harmonic Oscillation	27
	Box 2.2 Mass and Weight	28
2.5	Work, Energy, and Resonance	31
CHAPTER 3	SOURCES OF SOUND	38
3.1	Classifying Sound Sources	38
3.2	Percussion Instruments	39
3.3	String Instruments	42

3.4	Wind Instruments	44
3.5	Source Size	47
	*Box 3.1 Transposing Instruments	49
3.6	Sound from the Natural Environment	50

CHAPTER 4	SOUND PROPAGATION	54
------------------	--------------------------	-----------

4.1	Reflection and Refraction	54
4.2	Diffraction	57
	*Box 4.1 The Wave Nature of Matter	59
4.3	Outdoor Music	61
*4.4	The Doppler Effect	63
4.5	Interference and Beats	64

CHAPTER 5	SOUND INTENSITY AND ITS MEASUREMENT	72
------------------	--	-----------

5.1	Amplitude, Energy, and Intensity	72
5.2	Sound Level and the Decibel Scale	74
	Box 5.1 The Sound Level Meter	75
	Box 5.2 Sound Levels in Music	77
5.3	The Inverse-Square Law	78
*5.4	Environmental Noise	79
5.5	Combined Sound Levels and Interference	83
	*Box 5.3 Combining Amplitudes, Intensities, and Sound Levels	84

CHAPTER 6	THE HUMAN EAR AND ITS RESPONSE	89
------------------	---------------------------------------	-----------

6.1	The Mechanism of the Human Ear	90
6.2	Limits of Audibility and Discrimination	94
	*Box 6.1 Hearing Loss	95
6.3	Characteristics of Steady Single Tones	98
6.4	Loudness and Intensity	99
	Box 6.2 The Psychophysical Law	101

- 6.5 Pitch and Frequency 102
- 6.6 Pitch and Loudness Together 103
- 6.7 Timbre and Instrument Recognition 107

CHAPTER 7 ELEMENTAL INGREDIENTS OF MUSIC 113

- 7.1 Organizing Musical Events in Time 114
- 7.2 Melody and Harmony 118
- 7.3 Scales and Intervals 120
 - Box 7.1 The Chromatic Scale in Equal Temperament 121
- 7.4 The Harmonic Series 123

CHAPTER 8 SOUND SPECTRA AND ELECTRONIC SYNTHESIS 128

- 8.1 Prototype Steady Tones 129
- 8.2 Periodic Waves and Fourier Spectra 131
- 8.3 Modulated Tones 138
- 8.4 Electronic and Computer Music 141
 - *Box 8.1 Musical Uses of Computers 144

CHAPTER 9 PERCUSSION INSTRUMENTS AND NATURAL MODES 148

- 9.1 Searching for Simplicity 148
- 9.2 Coupled Pendulums 151
- 9.3 Natural Modes and Their Frequencies 155
- 9.4 Tuning Forks and Xylophone Bars 159
- 9.5 Drums, Cymbals, and Bells 163
 - Box 9.1 Tympani 167
- 9.6 Striking Points and Vibration Recipes 168
- 9.7 Damped Vibrations 170

CHAPTER 10 PIANO AND GUITAR STRINGS 177

- 10.1 Natural Modes of a Thin String 177
 - Box 10.1 Standing and Traveling Waves 179

10.2	Vibration Recipes for Plucked Strings	181
10.3	Vibration Recipes for the Piano	184
	Box 10.2 The Piano Action	185
10.4	Piano Scaling and Tuning	189
	Box 10.3 Impedance Matching	191

CHAPTER 11	THE BOWED STRING	198
-------------------	-------------------------	------------

11.1	Violin Construction	198
11.2	Bowing and String Vibrations	202
11.3	Resonance	208
	Box 11.1 Energy Flow and Resonance	209
11.4	Sound Radiation from String Instruments	213

CHAPTER 12	BLOWN PIPES AND FLUTES	225
-------------------	-------------------------------	------------

12.1	Air Column Vibrations	225
	Box 12.1 Acoustic Standing Waves	226
12.2	Fluid Jets and Edgetones	230
	Box 12.2 Examples of Flow Instability	231
12.3	Organ Flue Pipes	236
*12.4	Organ Registration and Design	241
12.5	Fingerholes and Recorders	245
12.6	The Transverse Flute	247

CHAPTER 13	BLOWN REED INSTRUMENTS	255
-------------------	-------------------------------	------------

13.1	Organ Reed Pipes	255
13.2	The Reed Woodwinds	260
13.3	The Brass Family	264
	*Box 13.1 A Chromatic Scale for the Trumpet	268
13.4	Playable Notes and Harmonic Spectra	269
13.5	Radiation	278
	Box 13.2 The Tacet Horn	278

CHAPTER 14	THE HUMAN VOICE	287
	14.1 The Vocal Apparatus	287
	14.2 Sound Production	290
	*Box 14.1 The Bernoulli Effect	292
	14.3 Formants	295
	*14.4 Special Problems of the Singing Voice	304
CHAPTER 15	ROOM ACOUSTICS	310
	15.1 General Criteria for Room Acoustics	310
	Box 15.1 Traveling and Standing Waves	314
	15.2 Reverberation Time	317
	15.3 Reverberation Calculation	322
	*15.4 Reverberant Sound Levels	327
	15.5 Sound Reinforcement	329
	15.6 Spatial Perception	332
	Box 15.2 Anechoic Chambers and Reverberation Chambers	332
CHAPTER *16	SOUND REPRODUCTION	341
	16.1 Electric and Magnetic Concepts	341
	16.2 Transducers	343
	16.3 Microphones	348
	16.4 Amplifiers	352
	16.5 Recording	355
	Box 16.1 Equalization	357
	16.6 Loudspeakers	360
	16.7 Multiphonic Sound Reproduction	364
CHAPTER 17	THE EAR REVISITED	371
	17.1 Types of Pitch Judgment	372
	17.2 Pitch Perception Mechanisms	372
	17.3 Modern Pitch Perception Theory	380

17.4	Critical Bands	382
	*Box 17.1 The Uncertainty Principle	385
17.5	Combination Tones	386
17.6	Loudness and Masking	389
17.7	Timbre	392

CHAPTER 18	HARMONIC INTERVALS AND TUNING	398
-------------------	--------------------------------------	------------

18.1	Interval Perception	398
18.2	Intervals and the Harmonic Series	404
18.3	Musical Scales	406
18.4	The Impossibility of Perfect Tuning	409
18.5	Tuning and Temperament	412
	Box 18.1 Moods, Keys, and Transposition	419

CHAPTER 19	STRUCTURE IN MUSIC	425
-------------------	---------------------------	------------

19.1	Melodies and Modes	425
19.2	Chords and Harmonic Progressions	428
19.3	Consonance and Dissonance	433
19.4	Musical Forms and Styles	434

CHAPTER 20	EPILOGUE: SCIENCE AND ESTHETICS	441
-------------------	--	------------

APPENDIX A	WRITTEN MUSIC	447
-------------------	----------------------	------------

APPENDIX B	THE METRIC SYSTEM	453
-------------------	--------------------------	------------

B.1	Units for Physical Measurements	454
B.2	Scientific Notation and Computation	455

APPENDIX G	GLOSSARY	459
-------------------	-----------------	------------

APPENDIX H	HINTS AND ANSWERS TO SELECTED EXERCISES	465
-------------------	--	------------

Index		469
-------	--	-----

The Chromatic Scale; The Chromatic Series Slider
